## How could Nessie look like?

Loch Ness is a big fresh water lake in Scotland. big fresh water lake. The lake is close to the town of Inverness in the Scottish Highlands. Loch Ness is 36 kilometres long, 1,6 kilometres wide, and 230 metres deep.

Loch Ness is so famous because a lot of people think they have seen the Loch Ness monster there. Another name for this monster is Nessie. Many people think it is a very big animal – like a dinosaur.

Until today, it is not clear if the Loch Ness monster really exists or not.

**Here, you can see how *we* think Nessie could look like – if the monster existed.**
